

Pesticide Information Office

The Pesticide Information Office has compiled a set of Continuing Education Units (CEUs) available for online purchase. Our goal is to provide pesticide handlers and applicators an alternative, and hopefully more convenient option for receiving CEU credits. With cooperation from the Department of Agriculture, these modules are now available for purchase through the IFAS Bookstore.

A screenshot of a website page titled 'Online CEU Modules'. The page features a photograph of a white building with a red brick base and a sign that reads 'Pesticide Office Building Bldg. 104'. The text on the page is in a dark blue serif font.

Online CEU Modules

- Continuing Education Units are now available online for purchase through the IFAS bookstore.
- The list of available modules will continue to grow, please visit our website frequently for updates.
